article is a book review, it's a good reminder for us to stay in contact with the theological and cultural variants our brothers and sisters in Christ may have across the globe.

Creationism (Stanford Encyclopedia of Philosophy)

Aug 30, 2003 · This portrays the Bryan figure as a bigot, wedded to a crude picture of life's past. In fact, Bryan in respects was an odd figure to be defending the Tennessee law. He thought that the days of Creation are long periods of time, and he had little sympathy for eschatological speculations about Armageddon and so forth.

Law - Wikipedia

Law is a system of rules created and enforced through social or governmental institutions to regulate behavior, with its precise definition a matter of longstanding debate. It has been variously described as a science and the art of justice. State-enforced laws can be made by a group legislature or by a single legislator, resulting in statutes; by the

executive through decrees and regulations

Occam's razor - Wikipedia

Occam's razor, Ockham's razor, Ocham's razor (Latin: novacula Occami), also known as the principle of parsimony or the law of parsimony (Latin: lex parsimoniae), is the problem-solving principle that "entities should not be multiplied beyond necessity", sometimes inaccurately paraphrased as "the simplest explanation is usually the best one." The idea is frequently attributed to English

Majors & Minors - Hillsdale College

MacTutor

Mar 23, 2012 · S M Stigler, Laplace's 1774 memoir on inverse probability, *Statist. Sci.* 1 (3) (1986), 359-378. S M Stigler, *Studies in the history of probability and statistics XXXIV: Napoleonic statistics : the work of Laplace*, *Biometrika* 62 (2) (1975), 503-517. S M Stigler, *Laplace's early work : chronology and citations*, *Isis* 69 (247) (1978), 234-254.

Lamarck, Evolution, and the Inheritance of Acquired Characters

THE French zoologist Jean-Baptiste Lamarck (See Figures 1 and 2) made two important announcements at the Museum of Natural History in Paris on the twenty-seventh day of floréal, year 10 of the French Republic (17 May 1802). He made the first in the opening lecture for his course on invertebrate zoology, which met at half past noon.
